STATEMENT OF SANDI JASPER

I hereby declare that I am a legal assistant to Rolf Fasth. I also declare that the subject patent application was personally prepared by me for mailing to the U.S. Patent and Trademark Office by Express Mail Label No. EL675382004US on November 19, 2001 (as is indicated on each page of the application documents). When I arrived at the Post Office to mail the application, I was informed that the application could not be accepted by the Post Office and was presented with a letter dated November 16, 2001 issued by the U.S. Postal Service that stated that express mail was suspended to Washington, D.C. Zip Codes 202 through 205.

EXHIBIT D

Since the application could not be mailed by Express Mail, I asked the postal employees what an alternate method of mailing the patent application would be and was told that certified mail appeared to be the best alternate method. Therefore, I saw no alternative except to change the mailing method from Express Mail to certified mail, and I called the attorney of record, Rolf Fasth, and discussed the matter with him. Rolf Fasth agreed that certified mail appeared to be the best and/or only alternate mailing method whereby we would receive a receipt confirming that the application was delivered to the U.S. Patent Office, and he instructed me to remove the application from the Express Mail envelope and readdress an envelope to the U.S. Patent Office and send the patent application by certified mail. Accordingly, I followed Rolf Fasth's instructions, and I mailed the application to the U.S. Patent Office on November 19, 2001 by Certified Mail, Article No. 7001 0320 0004 7993 4935.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may

jeopardize the validity of the application or any patent issued thereon.
